Headlines:

A progress 8 score of 0.21 is a fantastic forecast, and up on the 0.11 forecast in October. Attainment 8 of 50.1 alongside all of the other positive attainment forecasts would also be a brilliant result.

P8 of -0.14 for the disadvantaged would be a significant improvement on 2018 (-0.33), which in itself was a huge improvement on 2017 (-0.73).

Boys at -0.03 would be a significant improvement on the -0.37 of 2018. This is a key target for the school in 2018/19, and so it is a very pleasing forecast. Upper band Dis. Is a concern at -0.30, we worked incredibly hard to get the score up to 0.0 in 2018 and need to look at how we can impact upon that figure in the coming months.
