

CORONAVIRUS UPDATE

The current advice from the government is that no education setting should close in response to a suspected or confirmed case of Covid-19 unless advised to do so by Public Health England.

Therefore, this school will continue to open as usual for as long we possible and we will review specific public health advice on a daily basis.

School trips, including those within the UK, will be postponed until after Easter. Any trips which have been arranged for after Easter remain under review and we will keep you updated on this as necessary.

In line with public health advice to slow the spread of the virus, all parent evenings, sporting events, performances and the like are postponed until further notice.

The current government guidance for households with possible coronavirus is as follows:

If you live alone and you have symptoms of coronavirus illness (COVID-19), however mild, stay at home for **7 days** from when your symptoms started.

If you live with others and you or one of them have symptoms of coronavirus, then all household members must stay at home and not leave the house for **14 days**. The 14-day period starts from the day when the first person in the house became ill. It is likely that people living within a household will infect each other or be infected already. Staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community.

For anyone in the household who starts displaying symptoms, they need to stay at home for 7 days from when the symptoms appeared, regardless of what day they are on in the original 14 day isolation period.

Any changes to timetables or school opening will be communicated to parents and carers. We will review the situation on a daily basis and update this website with any changes.
